To Whom It May Concern

Dear,

As the S-CHEM 2010 T/A coming to a start up stage, I would like to take this opportunity to appreciate **Buainain Integrated Services Corp (BISCO)** management core team for having performed an excellent job which demonstrates the performance of BISCO team and expect to continue and maintain this effort / quality of work during the execution of the up-coming T/A next years.

We appreciate the efforts taken by the team in order to have a satisfactory job and we consider them as a great asset to BISCO. We wish them a grand success in their future endeavors.

QA/QC & NDT team have been working in our TA been carrying out their duties in an energetic and conscientious manner. They have been performing all their assignments displaying professionalism and high skill. We found them to be a good team member, always cheerful, exhibiting good conduct and reputation.

Although, they were working as a contractor employee, we felt that they were a part of our group due to their active participation in the day to day assignments of the TA jobs. They have been performing all the QAQC&NDT activities, independently and always had suitable answers to our queries regarding the jobs.

We appreciate them & their crew members for all the jobs well done with high responsibility and expect them to do the same or better in the up-coming T/A.
